## 1. Create the home page

<http://mcs.athens.edu/~amosely/Project1/index.html>

### The Halloween Store

For the little Goblin in all of us!

### Welcome to my site. Please come in and stay awhile

I started this web site because Halloween has always been my favorite holiday. But during the last year, I started selling some of my favorite Halloween products, and they've become quite a hit.

If you click on the Personal link, you can browse my favorite Halloween pictures, stories, and films. And if you join my email list, I will keep you up-to-date on all things Halloween.

#### Product Categories

- [Props](#)
- [Costumes](#)
- [Special Effects](#)
- [Masks](#)

#### My guarantee

If you aren't completely satisfied with everything you buy from my site, you can return it for a full refund. **No questions asked!**

## Accessibility:

Alyson Mosely  
00085459  
Project 1

The screenshot shows the WAVE web accessibility evaluation tool interface. On the left, there's a summary panel with various accessibility metrics: Errors (0), Contrast Errors (0), Alerts (3), Features (2), Structural Elements (7), and ARIA (0). A message at the bottom says, "Congratulations! No errors were detected! Manual testing is still necessary to ensure compliance and optimal accessibility." On the right, the main content area displays the website's structure and accessibility details. It includes sections for "The Halloween Store", "For the little Goblin in all of us!", and "Welcome to my site. Please come in and stay awhile". Below these, there's a "Product Categories" section listing "Props", "Costumes", "Special Effects", and "Masks". A "Code" button is located at the bottom of this section. At the top right, there's a "NortonLifeLock" badge indicating "Allowed webcam access to Google Chrome". The address bar at the top shows the URL: http://mcs.athens.edu/~amoseley/Project1/.

According to the Accessibility Evaluation Tool, I have three alerts which are for my links going to the same URL. Because right now, I have not made those pages, I think it is okay for the links to be the same. After I start building the pages though, I will need to make sure to replace the URLs.

## 2. Format the home page

The screenshot shows the formatted home page for "The Halloween Store". The page features a large orange cartoon pumpkin icon and the text "The Halloween Store" in yellow. Below that, it says "For the little Goblin in all of us!". The main content area contains the text "Welcome to my site. Please come in and stay awhile". A note below it states: "I started this web site because Halloween has always been my favorite holiday. But during the last year, I started selling some of my favorite Halloween products, and they've become quite a hit. If you click on the Personal link, you can browse my favorite Halloween pictures, stories, and films. And if you join my email list, I will keep you up-to-date on all things Halloween." Underneath this, there's a "Product Categories" section with a list of items: "Props", "Costumes", "Special Effects", and "Masks". Below that is a "My guarantee" section with the text: "If you aren't completely satisfied with everything you buy from my site, you can return it for a full refund. **No questions asked!**". At the bottom, there's a copyright notice: "© 2016 Ben Murach". The browser tab title is "Activity - Athens State University" and the address bar shows the URL: mcs.athens.edu/~amoseley/Project1/.

## Accessibility:

Alyson Mosely  
00085459  
Project 1

The screenshot shows the WAVE web accessibility evaluation tool interface. The address bar indicates the site is 'http://mcs.athens.edu/~amosely/Project1/'. The main content area displays the 'The Halloween Store' website. The WAVE summary panel on the left shows the following counts: Errors (0), Contrast Errors (0), Alerts (3), Features (2), Structural Elements (8), and ARIA (0). A message at the bottom of this panel says, 'Congratulations! No errors were detected! Manual testing is still necessary to ensure compliance and optimal accessibility.' The website itself has a header with a cartoon pumpkin icon and the text 'The Halloween Store' and 'For the little Goblin in all of us!'. Below this is a section titled 'Welcome to my site. Please come in and stay awhile' with a paragraph about the site's purpose and a link to a personal email. There is a 'Product Categories' section with links to 'Props', 'Costumes', 'Special Effects', and 'Masks', each accompanied by a small icon. A 'My guarantee' section states a full refund policy. The footer includes a copyright notice for '© 2016 Ben Murach'. A green button labeled '</> Code' is visible at the bottom right.

W3C CSS Validator results for http://mcs.athens.edu/~amosely/Project1/ (CSS level 3 + SVG)

Congratulations! No Error Found.

This document validates as CSS level 3 + SVG!

To show your readers that you've taken the care to create an interoperable Web page, you may display this icon on any page that validates. Here is the XHTML you could use to add this icon to your Web page:

```
<p>
  <a href="http://jigsaw.w3.org/css-validator/check/referer">
    
  </a>
</p>

<p>
  <a href="http://jigsaw.w3.org/css-validator/check/referer">
    
  </a>
</p>
```

(close the img tag with > instead of /> if using HTML <= 4.01)

Interested in understanding what new technologies are coming out of W3C? Follow [@w3cdevs on Twitter](#) to keep track of what the future looks like!

Donate and help us build better tools for a better web.

If you like, you can download a copy of this image to keep in your local web directory, and change the XHTML fragment above to reference your local image rather than the one on this server.

If you would like to create a link to this page (i.e., this validation result) to make it easier to re-validate this page in the future or to allow others to validate your page, the URI is:

<http://jigsaw.w3.org/css-validator/validator?url=http%3A%2F%2Fmcs.athens.edu%2F~amosely%2FProject1%2F&profile=css3svg&usermedium=all&warning=1&extwarning=0>

## Accessibility:

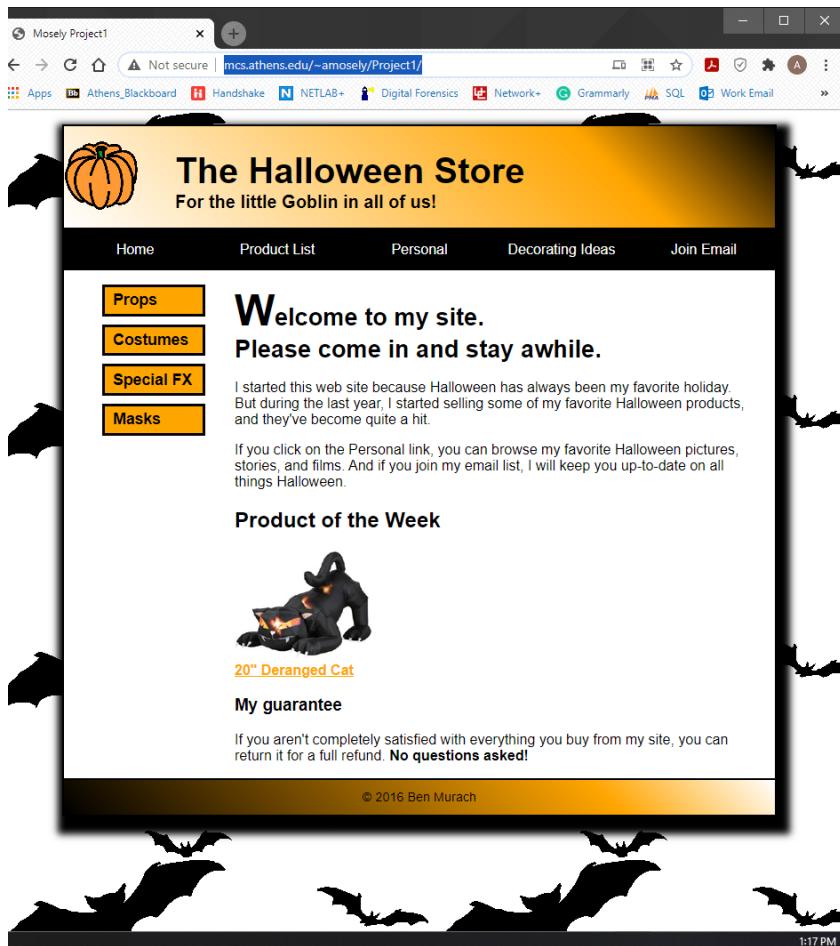

Alyson Mosely  
00085459  
Project 1

The screenshot shows the WAVE Report interface for the URL <http://mcs.athens.edu/~amoseley/Project1/>. The report summary indicates 0 errors, 0 contrast errors, 3 alerts, and 8 structural elements. A message at the top states: "The following apply to the entire page: [WAVE logo] [Key logo]". The main content area includes sections like "The Halloween Store", "For the little Goblin in all of us!", "Welcome to my site. Please come in and stay awhile.", "Product of the Week", and "My guarantee". Each section contains descriptive text and small thumbnail images. At the bottom, there's a note about returning items for a refund and a copyright notice: "© 2016 Ben Murach".

The accessibility evaluation tool shows that I only have three alerts which are due to those links being the same dummy link. When I start building the pages for those links, I will replace the links and the alerts should go away. Everything else looks good to go.

## 5. Add two navigation menus

Alyson Mosely  
00085459  
Project 1

## Validation:

This screenshot shows the "Nu Html Checker" interface. The title bar says "Showing results for http://mcs.athens.edu/~amosely/Project1/". The main content area displays the results of the validation for the URL "http://mcs.athens.edu/~amosely/Project1/". The checker input section includes options for "Show source", "outline", "image report", and "Options...". The "Check by" dropdown is set to "address" and the URL is entered. A "Check" button is present. Below the input area, a green bar states "Document checking completed. No errors or warnings to show.". The status bar at the bottom indicates "Used the HTML parser." and "Total execution time 76 milliseconds.".

Alyson Mosely  
00085459  
Project 1

The screenshot shows the W3C CSS Validator results for the URL <http://mcs.athens.edu/~amosely/Project1/>. The page displays a green banner stating "Congratulations! No Error Found." Below this, it says "This document validates as CSS level 3 + SVG!". It includes two examples of valid CSS validation icons (one orange and one blue) and a note about closing img tags. A footer section encourages community support and provides a link to the validation result.

## Accessibility:

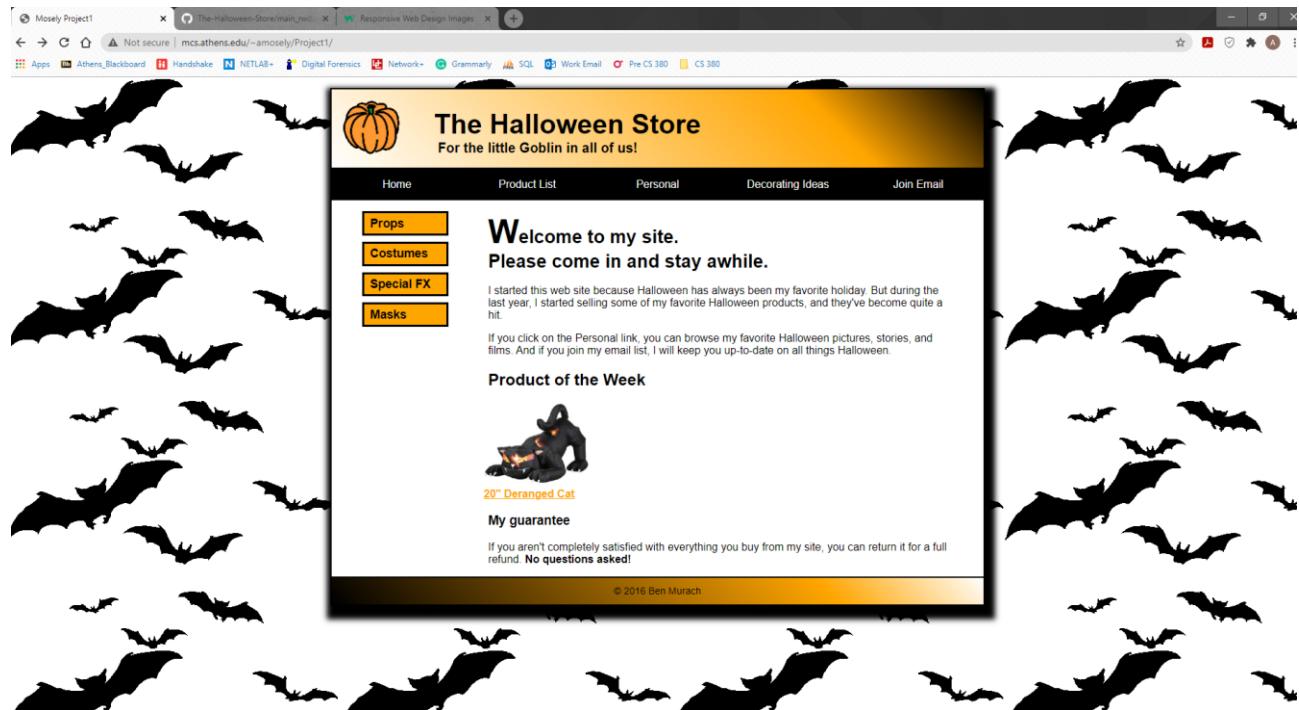

The screenshot shows the WAVE Report for the Project1 page. The report summary indicates 3 errors, 0 contrast errors, 1 alert, 3 features, 8 structural elements, and 0 ARIA errors. The main content area shows the website's navigation structure and specific accessibility issues found in the "Welcome to my site" and "Product of the Week" sections.

The accessibility evaluation tool shows that I have three errors and one alert. The three errors are for my vertical navigation bar only having links going to "#" and the alert is for my deranged cat image and the text below it going to the same link. Right now, because I have not made the pages that my vertical navigation

Alyson Mosely  
00085459  
Project 1

bar will go to (besides the homepage, but that is not one of the errors) I will ignore this since I will soon be fixing the problem. For the alert of the same URL for the image and caption, I will just have to let this slide since the specifications for this page at this step is to have both of them go to cat.html.

## 6. Use responsive web design

### Validation:

A screenshot of a web browser displaying the results of a Nu Html Checker validation. The title bar says "Showing results for http://mcs.athens.edu/~amosely/Project1%2F". The main content area has a blue header "Nu Html Checker". Below it, a message states "This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change". The next section, "Showing results for http://mcs.athens.edu/~amosely/Project1/", displays a form for "Checker Input" with fields for "Show" (checkboxes for source, outline, image report, Options...), "Check by" (dropdown set to "address"), and a text input field containing "http://mcs.athens.edu/~amosely/Project1/". A "Check" button is below the input field. At the bottom, a green bar indicates "Document checking completed. No errors or warnings to show." Smaller text at the very bottom provides parser information and execution time details.

Alyson Mosely  
00085459  
Project 1

The screenshot shows the W3C CSS Validator results for the URL <http://mcs.athens.edu/~amosely/Project1/>. The page title is "The W3C CSS Validation Service". A green banner at the top says "Congratulations! No Error Found." Below it, a message states: "This document validates as [CSS level 3 + SVG](#)!". It encourages users to add the validation icon to their website. Two examples of the icon code are provided:

```
<p> <a href="http://jigsaw.w3.org/css-validator/check/referer">
  <img alt="Valid CSS" type="image" />
</a></p>

<p> <a href="http://jigsaw.w3.org/css-validator/check/referer">
  <img alt="Valid CSS" type="image" />
</a></p>
```

(close the img tag with > instead of /> if using HTML <= 4.01)

At the bottom, there's a link to "Find out more!" about W3Cx's developer program and a call to "Donate and help us build better tools for a better web."

## Accessibility:

The screenshot shows the WAVE Report for the URL <http://mcs.athens.edu/~amosely/Project1/>. The page title is "WAVE Report of Mosely Project1". The summary section shows the following counts:

Category	Count
Errors	3
Contrast Errors	0
Alerts	1
Features	3
Structural Elements	8
ARIA	0

The report lists several issues:

- Home**: 3 errors (red icons), 0 contrast errors (green icons).
- Product List**: 0 errors (green icons), 0 contrast errors (green icons).
- Personal**: 1 error (red icon), 0 contrast errors (green icons).
- Decorating Ideas**: 0 errors (green icons), 0 contrast errors (green icons).
- Outdoor Indoor Table Treats**: 0 errors (green icons), 0 contrast errors (green icons).
- Join Email**: 0 errors (green icons), 0 contrast errors (green icons).
- Blank**: 0 errors (green icons), 0 contrast errors (green icons).

**Proposed Fixes:**

- Props
- Costumes
- Special FX
- Masks

**Section Headers:**

- Welcome to my site.**
- Please come in and stay awhile.**
- Product of the Week**

Details for the "Welcome to my site." section:

I started this web site because Halloween has always been my favorite holiday. But during the last year, I started selling some of my favorite Halloween products, and they've become quite a hit.

If you click on the Personal link, you can browse my favorite Halloween pictures, stories, and films. And if you join my email list, I will keep you up-to-date on all things Halloween.

As I stated in the previous step, the accessibility evaluation tool shows that I have three errors and one alert. The three errors are for my vertical navigation bar only having links going to "#" and the alert is for my deranged cat image and the text below it going to the same link. Right now, because I have not made the

Alyson Mosely  
00085459  
Project 1

pages that my vertical navigation bar will go to (besides the homepage, but that is not one of the errors) I will ignore this since I will soon be fixing the problem. For the alert of the same URL for the image and caption, I will just have to let this slide since the specifications for this page at this step is to have both of them go to cat.html.

## Specifications for a media query for a tablet in portrait orientation

**Note:** Screenshot was captured on an Iphone 11 in the Google app, it also works in Safari, I just prefer to use Google. Screenshot was captured on mobile phone since my Ipad goes beyond the 800-pixel max width and was not working correctly.

**h1 20" Deranged Cat**

 Deranged black cat

This cat provides its own light and is perfect for a backyard haunting.

Price: \$19.99

h5 Customers who bought this product also bought:

</> Code

The accessibility evaluation tool shows that my page has three errors and one alert. The three errors are for my horizontal navigation bar having no links to go, because it is a two-tier navigation bar and the same one I used for my Portfolio page, it shows that I have no links for Home and Product List when in fact these two

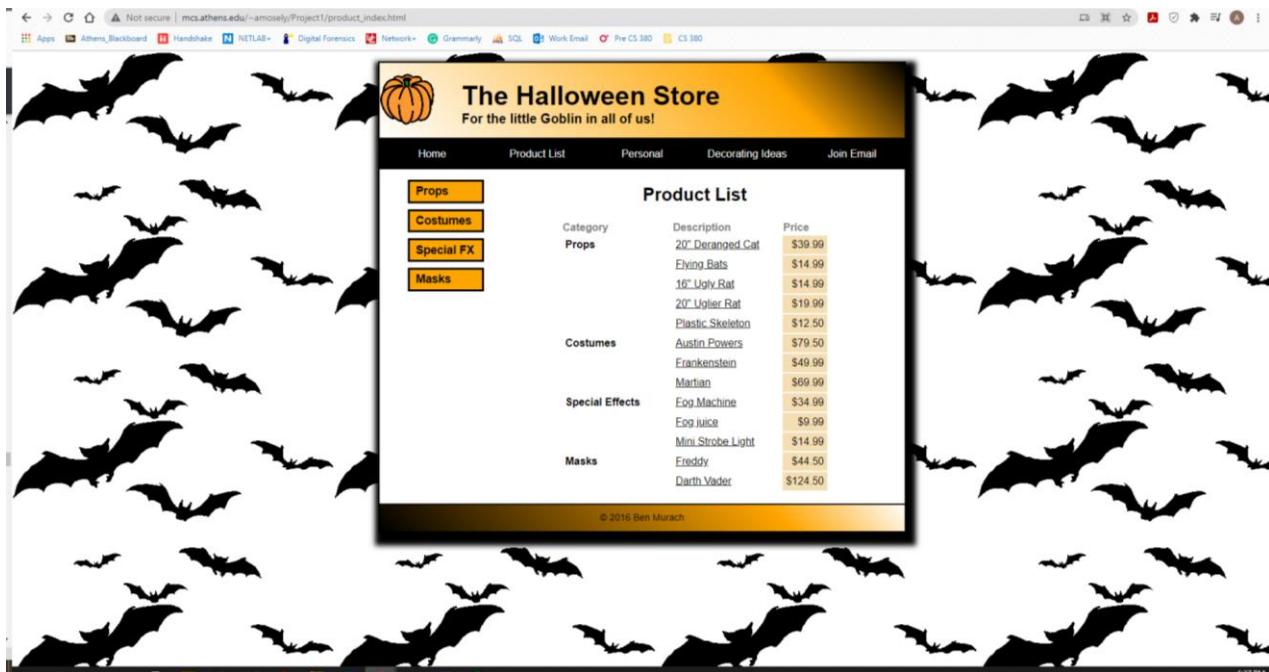

Alyson Mosely  
00085459  
Project 1

do have a link and it is on the drop down button. The other three will have their links when I create them.

The one alert is for a skipped heading size since my only heading is h5. I like the size of the font right now, so I think I will ignore this alert for now.

## 8. Create a page that uses a table

Project 1

The screenshot shows the WAVE Report interface for the URL [http://mcs.athens.edu/~amosely/Project1/product\\_index.html](http://mcs.athens.edu/~amosely/Project1/product_index.html). The report summary indicates 3 Errors, 1 Alert, and 10 Structural Elements. The page content includes an 

## The Halloween Store

 section and a 

## Product List

 section. The Product List table has columns for Category, Description, and Price, listing items like '20" Deranged Cat', 'Flying Bats', '16" Ugly Rat', and '20" Uglier Rat'.

The accessibility evaluation tool shows that my product page has three errors and one alert. The three errors are for my blank links on my top navigational bar due to the formatting I am using. I am unsure how to properly format the two-tier navigational bar right now to fill both of the links, so I will have to deal with these errors. The alert is for my page not having a h1 heading, instead I skip right to h2, but I like the style of my table headings and head, so I will ignore this alert for now.

## 9. Create a page that uses a form

<http://mcs.athens.edu/~amosely/Project1/email.html>

<http://mcs.athens.edu/~amosely/Project1/subscribe.html>

Alyson Mosely  
00085459  
Project 1

The screenshots show a web page for 'The Halloween Store' with a yellow header featuring a pumpkin icon and the text 'The Halloween Store' and 'For the little Goblin in all of us!'. The page has a black navigation bar with links for Home, Product List, Personal, Decorating Ideas, and Join Email. On the left, there are four orange buttons labeled 'Props', 'Costumes', 'Special FX', and 'Masks'. The main content area contains a form with fields for First Name, Last Name, Email, and Zipcode, followed by a 'Subscribe' button. Below the form is a copyright notice: '© 2016 Ben Murach'. The background of the page is white with a decorative pattern of black bat silhouettes flying across it. The URL in the address bar is 'mcs.athens.edu/~amosely/Project1/email.html'.

The second screenshot shows the same page after a submission, with a message 'Thank you for joining my email list!' and a note: 'You will be hearing from me soon. In the meantime, please feel free to browse through my site.' The URL in the address bar is 'mcs.athens.edu/~amosely/Project1/subscribe.html?first\_name=Alyson&last\_name=Mosely&email=alyson\_mosely%40yahoo.com&zip=35670&submit=Subscribe'.

Here is my favorite haunted house!

The evaluation tool shows that I only have one alert for my webpage and it is that there is an audio/video file present, which is okay because that is the extra shockwave file I linked.

## 11.Add an embedded font and a story and provide for printing the story

Alyson Mosely  
00085459  
Project 1

The screenshot shows a web browser window with a yellow header bar containing the text "THE HALLOWEEN STORE" and "For the little Goblin in all of us!". Below the header is a navigation menu with links for Home, Product List, Personal, Decorating Ideas, and Join Email. A sidebar on the left contains four orange buttons labeled Pictures, Home Videos, Haunted Houses, and Scary Stories. The main content area features a video player showing a person in a dark setting with the text "Hobbit's Grove" overlaid. Below the video, the text "Here is my favorite haunted house!" is displayed. To the right of the video, there is a story titled "This year's story: 'The Benevolent Goblin'" by Gesta Romanorum. The story text is as follows:

In the kingdom of England there is a hillock in the midst of a dense wood. Thither in old days knights and their followers were wont to repair when tired and thirsty after the chase. When one of their number called out, "I thirst!" there immediately started up a Goblin with a cheerful countenance, clad in a crimson robe, and bearing in his outstretched hand a large drinking-horn richly ornamented with gold and precious jewels, and full of the most delicious, unknown beverage.

The Goblin presented the horn to the thirsty knight, who drank and instantly felt refreshed and cool. After the drinker had emptied the horn, the Goblin offered a silken napkin to wipe the mouth. Then, without waiting to be thanked, the strange creature vanished as suddenly as he had come.

Now once there was a knight of churlish nature, who was hunting alone in those parts. Feeling thirsty and fatigued, he visited the hillock and cried out:

"I thirst!"

Instantly the Goblin appeared and presented the horn.

When the knight had drained it of its delicious beverage, instead of returning the horn, he thrust it into his bosom, and rode hastily away.

He boasted far and wide of his deed, and his feudal lord hearing thereof caused him to be bound and cast into prison; then fearing lest he, too, might become puffed up with the thought and pride of his knavery, the knight presented the jeweled horn to the King of England, who carefully preserved it among the royal treasures. But never again did the benevolent Goblin return to the hillock in the wood.

On the right side of the browser window, there is a vertical sidebar with bat silhouettes. At the bottom of the browser window, there is a print dialog box with the following settings:

- Print: 1 sheet of paper
- Destination: HPA3CF6E (HP Office)
- Pages: All
- Copies: 1
- Layout: Portrait
- Color: Color
- More settings
- Print Cancel

## Accessibility:

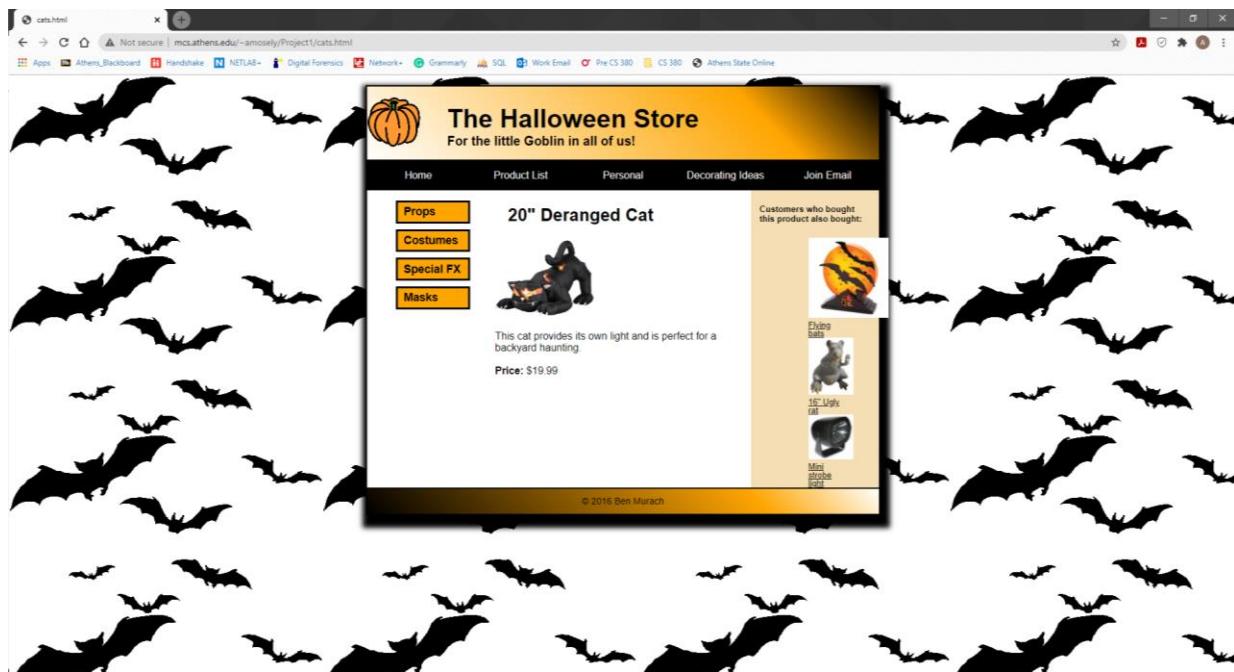

Alyson Mosely  
00085459  
Project 1

The screenshot shows a browser window with the WAVE Report of cats.html page. The address bar shows the URL: wave.webaim.org/report#/http://mcs.athens.edu/~amoseley/Project1/cats.html. The page title is "The Halloween Store". The main content area displays a product page for a "Deranged black cat". The page includes a navigation menu with links like Home, Product List, Product Detail, Personal, Decorating Ideas, and Join Email. Below the menu, there's a sidebar with icons for Errors (0), Alerts (1), Features (9), Structural Elements (8), and ARIA (0). A message at the bottom of the sidebar says: "Congratulations! No errors were detected! Manual testing is still necessary to ensure compliance and optimal accessibility." The product page itself shows a thumbnail of a black cat and the text: "This cat provides its own light and is perfect for a backyard haunting." The price is listed as \$19.99. There's also a section for "Customers who bought this product also bought:" followed by a list of items.

The evaluation tool shows that my page only has one alert and that is for once again skipping heading levels. I personally like the way my page is formatted and will ignore that alert for now.
